

## ClearOne Awarded New Patent Relating to Echo Cancellation with Beamforming Microphone Arrays

March 6, 2018

SALT LAKE CITY, March 6, 2018 /PRNewswire/ -- ClearOne (NASDAQ: CLRO), a global provider of audio and visual communication solutions, announced today that it has been awarded a new patent by the U.S. Patent and Trademark Office.

The USPTO issued patent number 9,854,101 to ClearOne. This patent, entitled "Methods and Apparatuses for Echo Cancellation with Beamforming Microphone Arrays," among other things, describes a method to perform beamforming and echo cancellation using a direction of arrival determination to select which beamformed signals to transmit.

This new patent is part of ClearOne's growing patent portfolio that currently includes over 100 patents and pending patent applications covering multiple new technologies in the fields of audio and video processing, audio and video streaming, and innovative communication technologies. ClearOne's patents reinforce and protect its market leadership position, and demonstrate ClearOne's ongoing ability to develop cutting-edge technologies and products.

### About ClearOne

ClearOne is a global company that designs, develops and sells conferencing, collaboration, and networking solutions for voice and visual communications. The performance and simplicity of its advanced, comprehensive solutions offer unprecedented levels of functionality, reliability, and scalability.
