

Newest Audio and Visual Communication Solutions from ClearOne to be Featured at N. America's Leading Enterprise Collaboration Event

March 14, 2019

Enterprise Connect Booth #1039

COLLABORATE® Live 1000 with the new Beamforming Microphone Array Ceiling Tile (BMA CT), which blends in perfectly with conventional drop ceilings

COLLABORATE® Versa Pro 50, designed to Improve the BYOD experience in huddle spaces and small conference rooms with professional quality audio and video

SALT LAKE CITY, March 14, 2019 (GLOBE NEWSWIRE) -- [ClearOne](#) (NASDAQ: CLRO), a leading supplier of audio and visual communications systems, is "gearing up" for Enterprise Connect with an opportunity for IT professionals and other visitors to be among the first to see, hear, and experience the new line-up of audio and video collaboration solutions from ClearOne.

Enterprise Connect is the leading conference and exhibition for enterprise unified communications (UC) and collaboration in North America, bringing corporate IT decision makers together with the industry's leading vendors, analysts and consultants, March 18-21, at the Gaylord Palms in Orlando, Florida.

ClearOne will be featuring new pro audio and video collaboration products ideally suited for IT and AV practitioners looking for differentiated professional solutions that can be deployed across enterprises of any size, to meet virtually any conferencing and collaboration requirement.

Key members of the ClearOne team will be on hand with the Company's complete line of products, known for unbeatable value, unmatched performance, simple integration, and reliable operation. They will also be showcasing the Company's latest products, some of which have never been featured before in North America, including the **COLLABORATE® Live 1000**, a complete professional video collaboration system with state-of-the-art audio and video technology, and an exclusive, patented ceiling tile beamforming mic array designed for medium and large meeting rooms.

The new COLLABORATE Live 1000 is just the newest addition to the Company's professional-grade COLLABORATE Live video collaboration systems. All 5 COLLABORATE Live room systems deliver feature-rich video collaboration with unmatched audio and video, interactive whiteboard, presentation, recording, streaming and cloud connectivity using an interface that's as familiar, intuitive and simple as that found on tablets and other

mobile devices.

The Company will also be displaying specially designed cameras, microphones, and other video and pro audio equipment designed for the way people work together today in different environments.

To help IT professionals to meet the growing market demand for a broader range of complete, bring your own device (BYOD) room solutions, ClearOne's **COLLABORATE Versa Pro 50** and **Versa Pro 150** bring together plug-and-play connectivity with high-quality audio and HD video to enhance the BYOD conference experience in huddle spaces, mid-size meeting rooms and executive offices. All COLLABORATE Versa solutions are compatible with high-quality cloud-based applications such as ClearOne COLLABORATE Space, Skype® for Business, Zoom, WebEx, GoToMeeting and ClearOne Spontania, among others.

The Company will feature additional products at the event and invites IT professionals and other key industry personnel to come to booth #1039 to experience the latest in collaboration and communication solutions from ClearOne.
