

ClearOne Reports First Quarter 2021 Financial Results

May 13, 2021

- Overall revenue grows by 23% year-over-year
- Non-GAAP Operating loss decreases 27% year-over-year
- · Core video, pro audio, and Beamforming Microphone Array Ceiling Tile solutions drive strong results

SALT LAKE CITY, May 13, 2021 (GLOBE NEWSWIRE) -- ClearOne (NASDAQ: CLRO), a global provider of audio and visual communication solutions, reported financial results for the three months ended March 31, 2021.

"The first quarter of 2021 continued our trend of year-over-year growth and the successful execution of our strategic imperatives. Our partners continue to recognize the value of our versatile video products and ground-breaking Beamforming Microphone Array based solutions as work and learn environments continue to evolve due to the transformative global impact of the pandemic. Our business continues to provide the indispensable tools for conferencing and collaboration for home, hybrid, and traditional use settings across a broad swath of organizations; education, enterprise, government and others. Whether for a student working from her PC, a work-from-home professional in a home office, or systems installed for teams across multiple facility sites, we continue to see revenue growth due to our widely appealing product portfolio including disruptive audio technologies that we believe will displace older solutions," said Zee Hakimoglu, CEO and Chair of ClearOne.

"Late last year, we introduced the BMA 360, our new flagship Beamforming Microphone Array in ceiling tile format. The excitement, acceptance, and adoption of this new product has exceeded our initial market expectations. Adding to its initial success, during the quarter, we announced availability of Voice Lift technology to further enhance the performance capabilities of our BMA 360. Voice Lift is a powerful feature addition that provides local amplification of a talker's voice easily enabling local listeners at every corner of a large space to experience the same comfortable and intelligible audio level as someone sitting right next to the talker. We believe that the new BMA 360, now with Voice Lift, sets an audio performance standard that is unrivaled in the industry and far superior to any other BMA solution in the market. The BMA 360 is based on a dramatically new approach to beamforming that provides a new beam topology to easily achieve distortion-free, full 360-degree coverage of any room shape and any seating arrangement using ClearOne Audio IntelligenceTM. The integrated features in the BMA 360 significantly reduce system design complexity, simplify installation, consume less rack space, and lower system cost," Hakimoglu added.

"Also, in May, we announced the availability of our new CONVERGENCE® AV Cloud software that enables powerful Management as a Service (MaaS) recurring revenue opportunities to AV practitioners. Convergence AV Cloud software is a unified AV management platform to monitor, control, and audit ClearOne Pro Audio and Video products and services. Remote real-time system access provides at-a-glance and all-inclusive dashboard views with auto-discovery of Pro Audio devices and unlimited scalability designed to support organizations of any size," Hakimoglu further added.

"We continue to prosecute our intellectual property claims against Shure. Though the resolution of our cases against Shure has been delayed by the COVID-19 pandemic, we are looking forward to presenting our cases to a jury in late 2021 or early 2022," concluded Hakimoglu.

Financial Summary

The Company uses certain non-GAAP financial measures and reconciles those to GAAP measures in the attached tables.

- Revenue in Q1 2021 was \$7.0 million, compared to \$5.7 million in Q1 2020 and \$8.6 million in Q4 2020. The increase in year-over-year revenue was mainly due to the increase in revenue from video products, beamforming microphone array products and professional installed audio conferencing products. The sequential decrease in revenues is due to typical seasonality in quarterly revenues. Despite this year-over-year revenue growth in Q1 2021, revenue from our audio conferencing products and microphones are far below the levels prior to infringement of our patents.
- GAAP gross profit in Q1 2021 was \$3.0 million compared to \$2.8 million in Q1 2020 and \$3.6 million in Q4 2020. GAAP gross profit margin was 42.7% in Q1 2021, compared to 49.5% in Q1 2020 and 41.8% in Q4 2020. Gross profit margin in Q1 2021 declined from Q1 2020 due to increase in share of lower margin products in the revenue mix, increased freight and tariff costs and increased inventory obsolescence costs, partially offset by a decrease in overhead costs as a percentage of revenue.
- Operating expenses in Q1 2021 were \$4.53 million, compared to \$4.59 million in Q1 2020 and \$4.40 million in Q4 2020.
 Non-GAAP operating expenses in Q1 2021 were \$3.99 million, compared to \$4.19 million in Q1 2020 and \$3.92 million in Q4 2020. The sequential increase in operating expenses is mainly due to additional audit and accounting expenses incurred in Q1 2021 which is typical for this quarter.
- GAAP net loss in Q1 2021 was \$1.7 million, or \$0.09 per share, compared to net loss of \$1.8 million, or \$0.11 per share, in Q1 2020 and net loss of \$5.5 million, or \$0.29 per share, in Q4 2020. The sequential and year-over-year decline in GAAP net loss was primarily due to increase in gross profit attributable to increase in revenue.

Balance Sheet Highlights

At March 31, 2021, cash, cash equivalents and investments were \$4.8 million, as compared to \$6.7 million at December 31, 2020. The Company carries a debt of \$4.4 million on account of senior convertible notes issued in December 2020 and a Paycheck Protection Program (PPP) loan in April 2020. The Company intends to use the entire PPP loan amount for qualifying expenses and to apply for forgiveness of the PPP loan.

About ClearOne

ClearOne is a global company that designs, develops and sells conferencing, collaboration, and network streaming solutions for voice and visual communications. The performance and simplicity of its advanced comprehensive solutions offer unprecedented levels of functionality, reliability and scalability. Visit ClearOne at www.clearone.com.

Non-GAAP Financial Measures

To supplement our consolidated financial statements presented on a GAAP basis, ClearOne uses non-GAAP measures of gross profit, operating income (loss), net income (loss), adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) and net income (loss) per share, which are adjusted to exclude certain costs, expenses, gains and losses we believe appropriate to enhance an overall understanding of our past financial performance from period to period and also our prospects for the future. These adjustments to our current period GAAP results are made with the intent of providing both management and investors a more complete understanding of ClearOne's underlying operational results and trends and our marketplace performance. The non-GAAP results are an indication of our baseline performance before certain gains, losses, or other charges that are considered by management to be outside of our core operating results. In addition, these adjusted non-GAAP results are among the primary indicators management uses as a basis for our planning and forecasting of future periods. The presentation of this additional non-GAAP financial information is not meant to be considered in isolation or as a substitute for gross profit, operating income (loss), net income (loss), income (loss) per share or other financial measures prepared in accordance with GAAP. There are limitations to the use of non-GAAP financial measures. Other companies, including companies in ClearOne's industry, may calculate non-GAAP financial measures differently than ClearOne does, limiting the usefulness of those measures for comparative purposes. A detailed reconciliation of non-GAAP financial measures to the most directly comparable GAAP financial measures is included with this release below.

Forward Looking Statements

This release contains "forward-looking" statements that are based on present circumstances and on ClearOne's predictions with respect to events that have not occurred, that may not occur, or that may occur with different consequences and timing than those now assumed or anticipated. Such forward-looking statements and any statements of the plans and objectives of management for future operations and forecasts of future growth and value and the possible outcomes of litigation, are not guarantees of future performance or results and involve risks and uncertainties that could cause actual events or results to differ materially from the events or results described in the forward-looking statements. Such forward-looking statements are made only as of the date of this release and ClearOne assumes no obligation to update forward-looking statements to reflect subsequent events or circumstances. Readers should not place undue reliance on these forward-looking statements. The information in this press release should be read in conjunction with, and is modified in its entirety by, the Annual Report on Form 10-K (the "10-K") filed by the Company for the same period with the Securities and Exchange Commission (the "SEC") and all of the Company's other public filings with the SEC (the "Public Filings").

In particular, the financial information contained herein is subject to and qualified by reference to the financial statements contained in the 10-Q, including the footnotes thereto, as well as the Company's annual report on Form 10-K for the year ended December 31, 2020 (the "10-K"), the footnotes thereto and the limitations set forth therein. Investors may not rely on the press release without reference to the 10-Q, the 10-K and the Public Filings.
