☒ Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2014.

Section 1 - Conflict Minerals Disclosure

Item 1.01. Conflict Minerals Disclosure and Report

Company Overview

ClearOne, Inc. (ClearOne) is a global company that designs, develops and sells conferencing, collaboration, streaming and digital signage solutions for voice and visual communications.

Conflict Minerals Disclosure

ClearOne has concluded that products it manufactures or contracts to manufacture contain conflict minerals, defined by Section 1502(e)(4) of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 ("the Act") as gold, columbite-tantalite (coltan), cassiterite, and wolframite, including their derivatives which are limited to tantalum, tin and tungsten. As a result of such conclusion, ClearOne conducted a reasonable country of origin inquiry designed to determine if the conflict minerals in its products originated in the Democratic Republic of Congo ("DRC") or the Central African Republic, South Sudan, Uganda, Rwanda, Burundi, Tanzania, Zambia or Angola (an "Adjoining Country") or are from recycled or scrap resources. Based on this reasonable country of origin inquiry, ClearOne has concluded that a portion of its products contain conflict minerals, that originated from the DRC or an Adjoining Country that may not be solely from recycled or scrap sources, and has concluded in good faith that such conflict minerals are "DRC conflict undeterminable". A description of the Company's reasonable country of origin inquiry to determine whether any necessary conflict minerals in the Company's products originated in the DRC or an Adjoining Country, the due diligence performed and ClearOne's determinations are included in the Conflict Minerals Report, which is attached to this Form SD as Exhibit 1.01.

A copy of ClearOne's Conflict Minerals Report is also publicly available on ClearOne's website at:
<http://investors.clearone.com/sec.cfm>

Item 1.02 Exhibit.

A copy of the Conflict Minerals Report required by Item 1.01 is filed as Exhibit 1.01 and is incorporated by reference.

Section 2 - Exhibits

Item 2.01 Exhibits

Exhibit 1.01 Conflict Minerals Report as required by Items 1.01 and 1.02 of this Form.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the duly authorized undersigned.

ClearOne, Inc.
Conflict Minerals Report
For the Year Ended December 31, 2014

Company Overview

ClearOne, Inc. (ClearOne) is a global company that designs, develops and sells conferencing, collaboration, streaming and digital signage products for voice and visual communications.

Conflict Minerals Disclosure

ClearOne has concluded that products it manufactures or contracts to manufacture contain conflict minerals, defined by Section 1502(e)(4) of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 ("the Act") as gold, columbite-tantalite (coltan), cassiterite, and wolframite, including their derivatives which are limited to tantalum, tin, and tungsten. As a result of such conclusion, ClearOne conducted a reasonable country of origin inquiry designed to determine if the conflict minerals in its products originated in the Democratic Republic of Congo ("DRC") or the Central African Republic, South Sudan, Uganda, Rwanda, Burundi, Tanzania, Zambia or Angola (an "Adjoining Country") or are from recycled or scrap resources. In conducting due diligence, ClearOne applied guidance from the OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas, an internationally recognized due diligence framework.

ClearOne has performed a reasonable country of origin inquiry, which included the following procedures:

- Determining which conflict minerals are necessary to the functionality or production of a product manufactured or contracted to be manufactured by ClearOne worldwide;
- Questionnaires were drafted and sent to all current suppliers requiring identification of any conflict minerals from the DRC or an Adjoining Country;
- Upon receipt from suppliers, all questionnaires were reviewed to determine whether conflict minerals were from the DRC or an Adjoining Country;
- Follow-up was conducted with slow-to-respond suppliers, distributors and resellers; and
- To the extent possible, a search of certain publicly available information was performed.

ClearOne has determined in good faith that for calendar year 2014, as a result of its due diligence efforts, that a portion of its products contain conflict minerals originating in the DRC or an Adjoining Country and knows or has reason to believe that those conflict minerals may not be solely from recycled or scrap sources. ClearOne has also concluded in good faith that during this reporting period, the necessary conflict materials contained in our products that originated or may have originated from the Covered Countries are "DRC conflict undeterminable." ClearOne was unable to determine whether the conflict minerals financed or benefited armed groups. A listing of known smelters identified by ClearOne suppliers, who supply materials for ClearOne's conferencing, collaboration, streaming and digital signage solutions for voice and visual communications, is included in Annex I.

In the next compliance period, ClearOne intends to continue gathering the information and improve due diligence measures and further mitigate the risk that its necessary conflict minerals do not benefit armed groups, including but not limited to (i) continuing to engage with suppliers to obtain current, accurate and complete information about the supply chain; and (ii) encourage suppliers to implement responsible sourcing and to have them encourage smelters and refiners to obtain a "conflict-free" designation from an independent third-party auditor.

This Conflict Minerals Report was not subject to an independent private sector audit, as such an audit was not required by paragraph 2 of the instructions to Item 1.01 of Form SD.

A copy of this Conflict Minerals report is publicly available on ClearOne's website at:
