ClearOne (NASDAQ: CLRO), a global provider of audio and visual communication solutions, today reported financial results for the three and twelve months ended December 31, 2015.

For the 2015 fourth quarter, revenue decreased 7% to \$14.3 million from \$15.4 million for the fourth quarter of 2014. Gross profit was \$9.1 million, or 64% of revenue, compared with \$9.9 million, or 65% of revenue, for the fourth quarter of 2014. Non-GAAP operating income decreased 4% to \$3.7 million from \$3.8 million for the fourth quarter of 2014. Non-GAAP net income decreased 27% to \$2.3 million, or \$0.24 per diluted share, from \$3.2 million, or \$0.33 per diluted share, for the fourth quarter of 2014. Non-GAAP Adjusted EBITDA decreased 4% to \$3.9 million, or \$0.41 per diluted share, from \$4.1 million, or \$0.43 per diluted share, for the fourth quarter of 2014.

For the year ended December 31, 2015, revenue remained steady at \$57.8 million compared with \$57.9 million for the year ended December 31, 2014. Gross profit was \$36.7 million, or 64% of revenue, compared with \$35.3 million, or 61% of revenue, for the year ended December 31, 2014. Non-GAAP operating income increased 29% to \$13.3 million from \$10.3 million for the year ended December 31, 2014. Non-GAAP net income increased 21% to \$8.7 million, or \$0.91 per diluted share, from \$7.2 million, or \$0.75 per diluted share, for the year ended December 31, 2014. Non-GAAP Adjusted EBITDA increased 27% to \$14.4 million, or \$1.50 per diluted share, from \$11.3 million, or \$1.18 per diluted share, for the year ended December 31, 2014.

Cash, cash equivalents and investments were \$39.8 million at December 31, 2015, up from \$33.6 million at December 31, 2014. The \$6.2 million increase comes after the company paid dividends totaling \$1.4 million in 2015. The company has no debt. In March 2016, the company declared a \$0.05 per share cash dividend, continuing its quarterly dividend program, and today, ClearOne announced a stock repurchase program of up to \$10 million of its outstanding shares.

"For the 2015 full year, profitability was up significantly on stable revenue compared with the prior year," said Zee Hakimoglu, President, Chief Executive Officer and Chairman of ClearOne. "For the fourth quarter, our topline was impacted by economic headwinds in certain key markets, overshadowing continued growth in our Middle East and India markets. Also in the fourth quarter, net income was adversely affected by a substantially higher provision for income taxes. Looking ahead, our strong balance sheet, the loyal support of our established channel partners and the most comprehensive and complete line-up of products in our industry give us confidence that we are well positioned for growth as economic conditions improve."

New Patents Awarded

Between November 2015 and February 2016, ClearOne was granted seven new patents by the U.S. Patent and Trademark Office (USPTO). These patents related to technologies including network media streaming, beamforming microphone arrays, spatial audio, audio for all-in-one displays, and multi-camera/multi-display video conferencing for intelligent spatial imaging.

ClearOne now has a patent portfolio consisting of 71 granted patents and 29 pending applications covering multiple new technologies in the fields of audio and video processing, audio and video streaming, and communication technologies. The company believes its patents and intellectual property are a direct link to its market leadership position, strong history of product innovation, and development of cutting-edge technologies.

Professional grade PTZ camera launched

In January, ClearOne announced the launch of UNITE® 200 PTZ Camera, a superbly versatile, professional-grade, HD video camera complete with USB, HDMI and IP connections that can be used for the widest possible range of applications including network streaming and video conferencing at a price significantly lower than competitive models. The camera features full HD 1080p@60fps video resolution to deliver the sharpest possible picture and its USB (3.0 or 2.0), HDMI and IP connections can be used simultaneously or individually.

Non-GAAP Financial Measures

ClearOne provides non-GAAP financial information in the form of non-GAAP operating income, non-GAAP net income, non-GAAP Adjusted Earnings Before Interest, Taxes, Depreciation, and Amortization (EBITDA) and corresponding earnings per share to investors to supplement GAAP financial information. ClearOne believes that excluding certain items from GAAP results allows ClearOne's management to better understand ClearOne's consolidated financial performance from period to period as management does not believe that the excluded items are reflective of underlying operating performance. Non-GAAP operating income, non-GAAP net income, non-GAAP Adjusted EBITDA and corresponding earnings per share excludes certain costs and expenses, the details of which are provided below in the tables containing the reconciliation between GAAP and non-GAAP financial measures. The exclusion of these items in the non-GAAP presentation should not be interpreted as implying that these items are non-recurring, infrequent, or unusual. ClearOne believes non-GAAP financial measures will provide investors with useful information to help them evaluate ClearOne's operating results and projections. This non-GAAP financial information is not meant to be considered in isolation or as a substitute for operating income, net income or other financial measures prepared in accordance with GAAP. There are limitations to the use of non-GAAP financial measures. Other companies, including companies in ClearOne's industry, may calculate non-GAAP financial measures differently than ClearOne does, limiting the usefulness of those measures for comparative purposes. A detailed reconciliation of non-GAAP financial measures to the most directly comparable GAAP financial measures is included with this release.

About ClearOne

ClearOne is a global company that designs, develops and sells conferencing, collaboration, streaming and digital signage solutions for voice and visual communications. The performance and simplicity of its advanced comprehensive solutions offer unprecedented levels of functionality, reliability and scalability.
