**ClearOne Reports Second Quarter 2018 Financial Results**

- *Revenue continued to be impacted by infringement of ClearOne's strategic patents*
- *Gross Profit Margin declined due to under absorption of overhead costs*

SALT LAKE CITY, UTAH – August 9, 2018 – ClearOne (NASDAQ: CLRO), a global provider of audio and visual communication solutions, reported financial results for the three months and six months ended June 30, 2018.

“Business conditions we experienced in the first quarter persisted resulting in another challenging quarter for the company” said Zee Hakimoglu, President and Chief Executive Officer. “We have undertaken initiatives to accelerate our pace of product innovation, the results of which are evident in important new products shipping this month and our plan to ship significant new solutions before the end of the year. In addition, the programs that we have undertaken to cut costs through man-power optimization and operating facilities reorganization, among other things, are planned to generate annualized cost savings of approximately \$3.9 million when they are fully implemented next year. We will also continue our vigorous litigation efforts to stop continuing harm to our business caused through infringement of our patents.”

**Financial Summary**

The Company uses certain non-GAAP financial measures and reconciles those to GAAP measures in the attached tables.

- Q2 2018 revenue was \$7.0 million, compared to \$10.3 million in Q2 2017 and \$7.3 million in Q1 2018. The year-over-year decrease as well as sequential revenue decline reflect an impact of the on-going harm of infringement of ClearOne's patents resulting in slower adoption of our next generation professional audio conferencing platform. The patent infringement has also negatively impacted revenue from ClearOne's other products that are sold with professional audio conferencing systems.
  - GAAP gross profit in Q2 2018 was \$3.3 million compared to \$6.1 million in Q2 2017 and \$4.1 million in Q1 2018. GAAP gross profit margin was 47% in Q2 2018, compared to 59% in Q2 2017 and 56% in Q1 2018. Gross profit margin decrease was primarily due to an increase in inventory obsolescence costs, a decline in licensing revenues and due to reduced overhead absorption into inventory. The proportion of overhead costs absorbed into inventory has declined due to a sharp decline in our inventory purchasing activity causing increased amounts of overhead costs to be expensed.
  - Operating expenses in Q2 2018 were \$6.2 million, compared to \$7.2 million in Q2 2017 and \$6.5 million in Q1 2018. The majority of the decrease in operating expenses over Q2 2018 is attributable to reduced legal expenses, capitalization of legal expenses related to patent litigation and reduced R&D related project expenses. Non-GAAP operating expenses in Q2 2018 were \$5.8 million, compared to \$5.9 million in Q2 2017 and \$6.1 million in Q1 2018. The sequential decrease in Non-GAAP operating expenses was mainly due to reduced sales commissions and R&D related project costs.
  - GAAP net loss in Q2 2018 was \$2.2 million, or \$0.26 per share, compared to net loss of \$0.8 million, or \$0.09 per share, in Q2 2017 and net loss of \$1.8 million, or \$0.22 per share, in Q1 2018. Net loss in Q2 2018 was largely caused by the reduction in revenue and associated gross profit. Non-GAAP net loss was \$1.8 million, or \$0.22 per share, in Q2 2018, compared to non-GAAP net loss of \$0.1 million in Q2 2017 and net loss of \$1.5 million, or \$0.18 per share, in Q1 2018. Non-GAAP net loss in Q1 2018 was caused by lower revenues and reduction in associated gross margin.

**Non-GAAP Financial Measures**

To supplement our consolidated financial statements presented on a GAAP basis, ClearOne uses non-GAAP measures of gross profit, operating income (loss), net income (loss), adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) and net income (loss) per share, which are adjusted to exclude certain costs, expenses, gains and losses we believe appropriate to enhance an overall understanding of our past financial performance from period to period and also our prospects for the future. These adjustments to our current period GAAP results are made with the intent of providing both management and investors a more complete understanding of ClearOne's underlying operational results and trends and our marketplace performance. The non-GAAP results are an indication of our baseline performance before certain gains, losses, or other charges that are considered by management to be outside of our core operating results. In addition, these adjusted non-GAAP results are among the primary indicators management uses as a basis for our planning and forecasting of future periods. The presentation of this additional non-GAAP financial information is not meant to be considered in isolation or as a substitute for gross profit, operating income (loss), net income (loss), income (loss) per share or other financial measures prepared in accordance with GAAP. There are limitations to the use of non-GAAP financial measures. Other companies, including companies in ClearOne's industry, may calculate non-GAAP financial measures differently than ClearOne does, limiting the usefulness of those measures for comparative purposes. A detailed reconciliation of non-GAAP financial measures to the most directly comparable GAAP financial measures is included with this release below.
