ClearOne Reports Second Quarter 2019 Financial Results

- *Q2 Video revenue up year-over-year by 16%*
- *Q2 Overall revenue down year-over-year by 8% — continued to be impacted by infringement of ClearOne's strategic patents*
- *Non-GAAP Operating expenses declined by 22% year-over-year*

SALT LAKE CITY, Aug. 14, 2019 (GLOBE NEWSWIRE) -- ClearOne (NASDAQ: CLRO), a global provider of audio and visual communication solutions, reported financial results for the three and six month ended June 30, 2019.

“The recent decision by the U.S. District Court in the Northern District of Illinois granting our request for a preliminary injunction to prevent Shure from manufacturing, marketing, and selling its competing ceiling microphone array in an infringing configuration is an incredibly valuable ruling for ClearOne and its business. It validates the strength and importance of ClearOne’s intellectual property rights, recognizes ClearOne’s innovations in this space, and stops Shure from further infringing ClearOne’s Graham patent (U.S. Patent No.9,813,806) pending a full trial. We believe this ruling will help pave way for ClearOne’s recovery from the immense harm inflicted by Shure’s infringement of our valuable patents,” said Zee Hakimoglu, CEO and Chair of ClearOne.

“ClearOne’s beamforming microphone array ceiling tile incorporating the innovative technology of the Graham Patent, the BMA CT₂ debuted in March this year and won multiple awards at Infocomm, the AV industry’s biggest annual show in North America, held in June. Continued growth in revenue from video products, critical acclaims received by BMA CT and the recent legal victory validate our strategy of unwavering focus on technological innovation, cost management and vigorous enforcement of our intellectual property rights.”

Financial Summary

The Company uses certain non-GAAP financial measures and reconciles those to GAAP measures in the attached tables.

- Q2 2019 revenue was \$6.4 million, compared to \$7.0 million in Q2 2018 and \$6.3 million in Q1 2019. The year-over-year decrease reflects an impact of the on-going harm of infringement of ClearOne’s patents on its audio conferencing products and microphones. The patent infringement has also negatively impacted directly the revenue from ClearOne’s other products. We believe the sequential increase is due to the seasonality of second quarter being traditionally a better quarter for AV buying when compared to the first quarter.
- GAAP gross profit in Q2 2019 was \$2.9 million compared to \$3.3 million in Q2 2018 and \$2.7 million in Q1 2019. GAAP gross profit margin was 46% in Q2 2019, compared to 47% in Q2 2018 and 43% in Q1 2019.
- Operating expenses in Q2 2019 were \$5.0 million, compared to \$6.2 million in Q2 2018 and \$5.1 million in Q1 2019. Non-GAAP operating expenses in Q2 2019 were \$4.7 million, compared to \$5.8 million in Q2 2018 and \$4.7 million in Q1 2019. The majority of the decrease in Q2 2019 operating expenses over Q2 2018 is attributable to decreases in employee related costs including benefits, allocations of overhead expenses, advertising costs and R&D project related costs, partially offset by increase in marketing expenses related to tradeshow.
- GAAP net loss in Q2 2019 was \$2.1 million, or \$0.13 per share, compared to net loss of \$2.2 million, or \$0.26 per share, in Q2 2018 and net loss of \$2.3 million, or \$0.14 per share, in Q1 2019. Net loss in Q2 2019 was largely caused by operating losses on account of reduction in revenue and associated gross profit. Net loss in Q2 2019 was lower than net loss in Q2 2018 largely due to reduced operating expenses offset by reduced gross profit and tax benefit. Non-GAAP net loss was \$1.7 million, or \$0.10 per share, in Q2 2019, compared to non-GAAP net loss of \$1.8 million in Q2 2019 and non-GAAP net loss of \$1.9 million, or \$0.11 per share, in Q1 2019.

Non-GAAP Financial Measures

To supplement our consolidated financial statements presented on a GAAP basis, ClearOne uses non-GAAP measures of gross profit, operating income (loss), net income (loss), adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) and net income (loss) per share, which are adjusted to exclude certain costs, expenses, gains and losses we believe appropriate to enhance an overall understanding of our past financial performance from period to period and also our prospects for the future. These adjustments to our current period GAAP results are made with the intent of providing both management and investors a more complete understanding of ClearOne's underlying operational results and trends and our marketplace performance. The non-GAAP results are an indication of our baseline performance before certain gains, losses, or other charges that are considered by management to be outside of our core operating results. In addition, these adjusted non-GAAP results are among the primary indicators management uses as a basis for our planning and forecasting of future periods. The presentation of this additional non-GAAP financial information is not meant to be considered in isolation or as a substitute for gross profit, operating income (loss), net income (loss), income (loss) per share or other financial measures prepared in accordance with GAAP. There are limitations to the use of non-GAAP financial measures. Other companies, including companies in ClearOne's industry, may calculate non-GAAP financial measures differently than ClearOne does, limiting the usefulness of those measures for comparative purposes. A detailed reconciliation of non-GAAP financial measures to the most directly comparable GAAP financial measures is included with this release below.
