ClearOne Set to Unleash the Power of Digital Signage at DSE 2018

March 9, 2018

SALT LAKE CITY, March 9, 2018 /PRNewswire/ -- Underscoring its ability to provide systems integrators with the solutions they need to maximize the full potential of their digital signage systems, ClearOne (NASDAQ: CLRO), a global supplier of audio and visual communications systems, today announced it will demonstrate its new ClearOne VIEW® Pro software upgrade at Digital Signage Expo (DSE) 2018 on March 28-29 at Booth #2017 in the Las Vegas Convention Center.

First introduced at ISE 2018, the new and powerful software upgrade to its VIEW® Pro solution makes it easier than ever to configure AV over IP streaming platforms that can unleash the full power of any enterprise digital signage system. A convenient web-based GUI is now available for installers to access from a web browser. Also, the configuration tools on CONSOLE® software have been organized and redesigned for intuitive and simplified set-ups. This VIEW Pro system upgrade makes any installation a breeze from start to finish.

"The ClearOne VIEW Pro solution is the key to unleashing the full power of any digital signage system," said ClearOne Sales Director for Network Video & Audio Distribution Lewis Eig. "In fact, VIEW Pro delivers the highest quality multimedia streaming on any existing IP network and our new software upgrade makes it easier than ever to configure a system design that enables users to experience the ultimate in 4:4:4, true-color media distribution that is unmatched in scalability and ease of deployment."

With the VIEW Pro system's new web-based GUI, simple tasks, such as assigning IP addresses, configuring streams, and even signal routing across a large installation can be done just by entering one device's URL into the web browser. In addition to that, the VIEW Pro CONSOLE upgrade gives integrators the easiest interface to configure the encoders and decoders, and to create and manage AV streams for projects of any scale."

ClearOne's award-winning VIEW Pro product line offers the industry a comprehensive and powerful suite of AV over IP components, now with enhanced installer-friendly configuration software. Along with its low bandwidth, highest quality video, flexible scalability, and budget-friendly optional software licenses for video wall, video composition, and local playback, the VIEW Pro system will meet the needs of any network media streaming project.

On display throughout DSE 2018 will be the VIEW Pro ENCODER E120, VIEW Pro ENCODER E110-4K, VIEW Pro DECODER D210, and VIEW Pro DECODER D110-4K.
