USPTO Publishes ClearOne's New Internet Protocol Streaming Audio Patent

August 23, 2010

USPTO Publishes ClearOne's New Internet Protocol Streaming Audio PatentSALT LAKE CITY, Aug. 23 /PRNewswire-FirstCall/ -- ClearOne (http://www.clearone.com) (Nasdaq: CLRO), a global communications solutions company that develops and sells conferencing, collaboration, streaming media, and connectivity systems for audio, video and web applications, today announced they have received notice of publication from the United States Patent and Trademark Office for their patent titled Internet Protocol Streaming Audio, # US 2010/0172512 A1.

This patent is related to their StreamNet® technology and now extends the streaming of audio signals to mobile devices on local area networks. The technology enables discovery, authentication, and synchronous transmission and playback of time-sensitive media content over internet protocol on any mobile device.

About ClearOne

ClearOne is a global communications solutions company that develops and sells conferencing, collaboration, streaming media and connectivity systems for audio, video, and web applications. The reliability, flexibility and performance of our advanced comprehensive solutions enhance the quality of life through better communication, education, and entertainment.

NetStreams, recently acquired by ClearOne, delivers the ultimate IP A/V experience by distributing high definition audio and video over TCP/IP networks. NetStreams' products offer unprecedented levels of performance, functionality, simplicity, reliability, and expandability. By combining audio/video content, meta-data and control signals into one stream incorporating industry standards, NetStreams' newly patented StreamNet® solutions are a smart investment, enabling the Power of AV over IP - today.

NetStreams' StreamNet technology provides elegant solutions for streaming media & control applications such as digital signage, distribution of HD video and audio, LAN Cloud Matrix Switching, and audio paging over data networks.
