ClearOne Awarded a 2015 Communications Solutions Product of the Year Award

August 20, 2015

SALT LAKE CITY, Aug. 20, 2015 /PRNewswire/ -- ClearOne (NASDAQ: CLRO) announced today that TMC, a global, integrated media company, has awarded VIEW® Pro D210 Decoder a 2015 Communications Solutions Product of the Year Award.

The award-winning VIEW Pro D210 decoder enables high-quality, low-latency media streaming over existing IP networks. This network device from ClearOne is the ideal solution for deployments such as digital signage applications where common content is repeated over multiple displays and may not need professional-level audio amplification, or third-party equipment control. Such applications include displays at airports and transportation hubs, hotels, casinos, and shopping malls. VIEW Pro D210 incorporates 1080p60, H.264 high-definition HDMI video-audio, and 4:4:4 true-color output - the platinum standard for color. It is an attractive compact device that can be easily mounted behind any display.

"ClearOne is honored to have our VIEW Pro D210 cited as the Communications Solutions Product of the Year by TMC," said Zee Hakimoglu, Chairman and CEO of ClearOne. "ClearOne continues to be truly differentiated in the professional market by offering complete AV streaming and distribution systems that can scale to fulfill projects of any size and complexity, from light commercial to the very largest environments. ClearOne's network media streaming solutions deliver agility, flexibility, and scalability for networked media of all types."

"Congratulations to ClearOne for being honored with a 2015 Communications Solutions Product of the Year Award," said Rich Tehrani, CEO, TMC. "The VIEW Pro D210 is truly an innovative product and is amongst the best solutions that facilitate voice, data and video communications brought to market in the past twelve months. I look forward to continued excellence from ClearOne in 2015 and beyond."
