Fortune Small Business Adds ClearOne to 2009 FSB 100 List

ClearOne Ranked #82 Among America's Fastest Growing Small Public Companies

SALT LAKE CITY, July 15 /PRNewswire-FirstCall/ -- ClearOne (Nasdaq: CLRO) today announced that it has been named as one of America's fastest growing small public companies by Fortune Small Business magazine in its annual FSB 100 list. ClearOne was ranked #82. In announcing the 2009 FSB 100, Fortune Small Business stated: "In good times the [FSB 100](#) constitutes an elite group of small public companies: the best of the best, measured by revenue growth and stock performance over the past three years. But in this Great Recession, their performance is nothing short of miraculous."

"We are honored to be recognized by Fortune Small Business as one of America's top small public companies," said Zee Hakimoglu, president, chief executive officer and chairman of ClearOne. "We are particularly pleased to be included among the 30 best companies in the technology sector of FSB 100. All of us at ClearOne share in this recognition, which reflects the hard work and dedication of every employee at ClearOne."

To qualify for the FSB 100 list, candidates must be a U.S.-domiciled firm with annual revenues of less than \$200 million and a stock price greater than \$1. All companies that meet these criteria are ranked, 1-100, by their three-year annualized rates of revenue growth and total return to investors. The overall rank is based on the sum of the two ranks. Companies with losses in any of the four quarters ended on or before Dec. 31, 2008, were excluded from the list.
