ClearOne Offers New Digital Wireless Microphone Systems Specifically for the European Telecommunications Market

Microphones Operate with any DSP Mixer for Conferencing or Live Performances, and are Optimized to Work with ClearOne CONVERGE Pro and INTERACT Pro

SALT LAKE CITY, Oct. 9, 2014 /PRNewswire/ -- ClearOne (NASDAQ: CLRO), a world leader in voice and visual communication solutions, has released five new models of digital wireless microphones for use within the member countries of the European Union, and which comply with new European telecommunications regulations.

"This new series of digital wireless microphones from ClearOne has been redesigned with a unique method for data compression that reduces the occupied bandwidth from 500 kHz to 200 kHz per channel to comply with European standards, without compromising the quality and fidelity of the reproduced audio signal," said Durai Ramachandiran, Senior Director of Product Line Management for ClearOne. "Value Added Resellers can choose among systems in the 900 MHz, 700 MHz, 600 MHz or 500 MHz frequency ranges depending on region and confidently deliver to their customers anywhere in Europe in compliance with local technical regulations intended to prevent interference with broadcasters and wireless carriers."

ClearOne's digital wireless microphones are ideal for both conferencing and live performance applications with any DSP mixer. They are optimized to work with ClearOne CONVERGE[®] Pro and INTERACT[®] Pro products, and perfectly complement ClearOne professionally installed audio conferencing systems. All microphones use radio-frequency digital wireless signal transmission technology with highly secure encryption to preserve privacy, and come equipped with convenient field-replaceable batteries and USB charging options. Five models of wireless microphones and transmitters are available: wireless tabletop, wireless gooseneck, wireless hand-held, wireless belt-pack lavalier, and a single-ear headset option.

The product is targeted to ship in November 2014. More details on ClearOne digital wireless microphone systems are located at http://www.clearone.com/products_wireless_microphone_system
