NetStreams to Showcase the Power of AV Over IP at Integrated Systems Europe 2010

StreamNet(TM) Digital Media Network products will be shown in the combined ClearOne and NetStreams Booth #3D102 in Amsterdam RAI, NL.

SALT LAKE CITY, Jan. 28 /PRNewswire-FirstCall/ -- NetStreams, the pioneer in digital media networks based on Internet Protocol (IP) technology, recently acquired by ClearOne (Nasdaq: CLRO), the leading global provider of audio conferencing solutions, today announced it will be showcasing DigiLinX™ IP-Based and IP-Controlled systems, designed for commercial and residential use at the upcoming Integrated Systems Europe (ISE) show, Tuesday, February 2 through Thursday, February 4, 2010.

The NetStreams DigiLinX products use StreamNet technology to handle virtually any number of digital or analog sources and deliver HD video and audio content to virtually an unlimited number of zones. NetStreams will exhibit its products, along with dealer application suite tools in booth #3D102 at the RAI Exhibition Centre in Amsterdam RAI, NL.

NetStreams' digital media network products based on Internet Protocol (IP) technology are used in a wide variety of applications, including digital signage, corporate video distribution, network operations centers and government facilities, and large venues in such industries as hospitality, entertainment and casinos. NetStreams' digital streaming media and control systems support virtually any number of digital or analog sources, including high definition audio and video content to nearly an unlimited number of networked endpoints.

"With our recent acquisition of NetStreams, we look forward to showcasing the NetStreams products to our customers and channel partners at this year's ISE show in the combined ClearOne and NetStreams booth," said Zee Hakimoglu, President and CEO at ClearOne. "As the global market increasingly embraces the benefits of efficiently distributing audio, video and data content through Internet Protocol technology, the products offered by NetStreams and ClearOne will be even more powerful industry solutions for the benefit of our global customer and channel partners."

About ClearOne

ClearOne is a communications solutions company that develops and sells audio conferencing systems and other related products for audio, video, and web conferencing applications. The reliability, flexibility, and performance of ClearOne's comprehensive solutions create a natural communications environment, which saves organizations time and money by enabling more effective and efficient communication.
