ClearOne Launches New NetStreams Website for Residential Electronic Systems

New site highlights increased focus on home automation as well as entertainment features.

SALT LAKE CITY, Sept. 22 /PRNewswire/ -- ClearOne (<http://www.clearone.com>) (Nasdaq: CLRO), a global communications and entertainment solutions company, today launched a new website for its NetStreams brand of residential A/V distribution and home control systems (www.netstreams.com).

The new website streamlines the user experience and brings together product line overviews, product specifications, forums, training, and support materials in an easy to navigate format. The site highlights how NetStreams systems can be used for both entertainment and home automation control. Netstreams.com is the place to also catch the latest company and product news, as well as find out where NetStreams is showcasing its IP-enabled entertainment systems for the digital home.

"The newly redesigned site gives visitors the visual experience of our products, as well as providing the NetStreams product information they are looking for," said Buzz Goddard, Vice President of Worldwide Residential Sales at ClearOne. "NetStreams understands the importance of accessible information, especially when customers are looking for the right NetStreams product to fit their needs. The site also encompasses the newly launched Dealer Training site that has been completely redesigned."

Custom electronics installers and system designers can visit NetStreams this week at the CEDIA EXPO in booth # 2606 in Atlanta, GA. The Expo is the leading trade show for the residential electronic systems industry.

About ClearOne

ClearOne is a global communications solutions company that develops and sells conferencing, collaboration, streaming media and connectivity systems for audio, video, and web applications. The reliability, flexibility and performance of our advanced comprehensive solutions enhance the quality of life through better communication, education, and entertainment.

NetStreams, recently acquired by ClearOne, delivers the ultimate IP A/V experience by distributing high definition audio and video over TCP/IP networks. NetStreams' products offer unprecedented levels of performance, functionality, simplicity, reliability, and expandability. By combining audio/video content, meta-data and control signals into one stream incorporating industry standards, NetStreams' newly patented StreamNet® solutions are a smart investment, enabling the Power of AV over IP™ today.

NetStreams' StreamNet technology provides elegant solutions for streaming media & control applications such as digital signage, distribution of HD video and audio, LAN Cloud Matrix Switching™, and audio paging over data networks.
